COMMENTS OF [SOUTHWEST COLORADO TV TRANSLATOR ASSOCIATION]

Southwest Colorado TV Translator Association submits these Comments in response to the Commission's Notice of Proposed Rule Making ("NPRM"), FCC 04-113, released May 25, 2004.

Southwest Colorado TV Translator Association owns and operates several dozen tv translators in SW Colorado. We are totally opposed to any other use of channels 2 through 51 for anything else but television. The conversion to digital is not complete and the FCC's forcing broadcasters off of channels 52 through 83 over the last few years have created a tightening of the spectrum. The unknowns with interference issues that unlicensed networking devices may cause with consumers receiving broadcasts, translators input frequencies do not warrant the FCC allowing any other use of the spectrum.

Respectfully submitted,

Wayne Johnson
